**ONIKA PHARMACEUTICALS**

**ONIKA PHARMACEUTICALS**

Combination of Herbal extracts with Electrolytes

# Dialyte

Liquid

Prevents loose droppings  
Prevents diarrhea of specific and non specific origin  
Modulates gut function  
Helps in correcting malabsorption syndromes  
Helps to shorten the duration of diarrhea  
Effective against E coli, Shigella, Micrococcus Pyrogens Var. aureus, Salmonella Typhosa

## Usage & administration:

Cow, Buffalo & Horses : 50-60 ml twice a day  
Calf, Goat & Pig : 25-30 ml twice a day  
Chicks : 5 ml daily per 100 birds  
Growers : 7 to 8 ml daily per 100 birds  
Layers / Broilers : 10 ml daily per 100 birds  
Breeders : 15 ml daily per 100 birds

**Presentation :**  
500 ml & 1 Ltr.

Blend of Calcium, Phosphorus, Multivitamin & Galactagogue Herbs

# Milky

Liquid

Increases milk production & optimizes fat level in milk  
Maintains appetite, health & digestion  
Improves skeletal and muscular strength  
Prevents hypocalcaemia /milk fever/ROP/ Rickets  
Improves energy level  
Improves the Growth rate in young ones

## Usage & Administration:

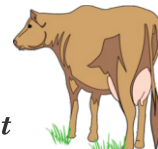

Large Animals: 50 to 100 ml daily  
Small Animals: 30 to 50 ml daily

**Presentation :** 1 lt, 5 lt, 10 lt, 20 lt, 40 ltr

Blend of Calcium, Phosphorus, Multivitamin & Galactagogue Herbs

# Milky

Sachet

Increases milk production & optimizes fat level in milk  
Maintains appetite, health & digestion  
Improves skeletal and muscular strength  
Prevents hypocalcaemia /milk fever/ROP/ Rickets  
Improves energy level  
Improves the Growth rate in young ones

## Usage & Administration:

1 sachet twice a day

**Presentation:** 10 gm sachet  
(20 sachet in a box)

Blend of Calcium, Phosphorus, Multivitamin & Galactagogue Herbs

# Milky

Bolus

Increases milk production & optimizes fat level in milk  
Maintains appetite, health & digestion  
Improves skeletal and muscular strength  
Prevents hypocalcaemia /milk fever/ROP/Rickets  
Improves energy level  
Improves the Growth rate in young ones

## Usage & Administration:

1 bolus twice a day

**Presentation:** 1 Bolus strip (20 bolus in a box)

Oral Ionic Calcium Gel

# Milky

gel

Supplies calcium to ensure normal levels of serum calcium before, during and after calving

Protect from milk fever & Hypocalcaemic disorder

## Usage & Administration:

Administer one tube 6-12 hours prior to calving and give another tube with 6-12 hours after calving

**Presentation :** Single dose unit of 300 gm

Combination of Vitamin A, D, E, H & Selenium

# Deba-H

Liquid

Improves fertility & egg production  
Maintains healthy pregnancy  
Helps to improve semen quality  
Helps to develop uterus and ovary  
Helps in speedy recovery from mastitis & metritis  
Promotes the growth of foetus  
Protect from Night Blindness & Rickets

## Usage & Administration:

Large Animals- 10-15 ml daily  
Small Animals- 5- 7 ml daily  
Chicks- 3-5 ml daily per 100 birds  
Growers- 4-6 ml daily per 100 birds  
Layers / Broilers- 6-8 ml daily per 100 birds  
Breeders- 10-15 ml daily per 100 birds

**Presentation :**  
100 ml, 250 ml,  
500 ml & 1 ltr

Combination of Vit. A,D, E, H With Omega 3, Omega 6 Fatty Acids & Natural Herbs

# Mammi-Care

Liquid

Improves fertility & egg production  
Maintains healthy pregnancy  
Helps to develop uterus and ovary  
Supports to preserve skeletal formation  
Helps in speed recovery for mastitis  
Increases the milk holding capacity of udder  
Reduces pain & inflammation  
Protect from Night Blindness & Rickets

## Usage & Administration:

Large Animals : 10-15 ml daily  
Small Animals- 5- 7 ml daily  
Chicks : 3-5 ml daily per 100 birds  
Growers : 4-6 ml daily per 100 birds  
Layers / Broilers- 6-8 ml daily per 100 birds  
Breeders : 10-15 ml daily per 100 birds

**Presentation:**  
100 ml, 250 ml,  
500 ml & 1 Ltr

Combination of Liver Extract, Amino Acids & Vitamins

# Hepatone

Liquid

Protect liver damage from Aflatoxins, Mycotoxins & Bacterial toxins  
Improves fat metabolism & prevents fatty liver syndrome  
Improves growth, FCR, Hatchability, egg production  
Tones up micro flora in calves after deworming  
Faster recovery from stress & all types of diseases  
Prevents liver damage due to pesticide, insecticide

## Usage & Administration:

Large Animals : 25-30 ml twice a day  
Small Animals : 15 to 20 ml twice a day  
Chicks : 5 ml daily/100 birds  
Growers: 10 ml daily/100 birds  
Layers & Broilers: 15 ml daily/100 birds  
Breeders: 20 ml daily/100 birds

**Presentation :**  
500 ml, 1 ltr  
& 5 ltr

Combination of Hepatoprotective Natural Herbal Extracts

# Hepatone

Natural

Prevents liver damage due to aflatoxins, Mycotoxins & bacterial toxins  
Vitalizes sluggish liver & enhance immunity  
Tones up micro flora in calves after deworming  
Improves growth, FCR, fertility & Hatchability  
Stimulates regeneration of hepatic cells  
Enhances meat quality with low cholesterol

## Usage & Administration:

Large Animals : 25 to 30 ml twice a day  
Small Animals : 15 to 20 ml twice a day  
Chicks : 5 ml daily per 100 birds  
Growers: 10 ml daily per 100 birds  
Layers & Broilers: 15 ml daily per 100 birds  
Breeders: 20 ml daily per 100 birds

**Presentation :**  
500 ml, 1 ltr  
& 5 ltr

Combination of Vitamins, Liver Protecting Amino Acids, Liver Extract, Sorbitol with Fatty Acid Transporter

# Livoplex

Liquid

Stimulates regeneration of Hepatic cells  
Increases fat metabolism & prevents fatty acid syndrome  
Prevents liver damage due to aflatoxins, Mycotoxins  
Vitalizes sluggish liver & enhance immunity  
Tones up micro flora in calves after deworming  
Improves growth, FCR, fertility & Hatchability

## Usage & Administration :

Large Animals : 25 to 30 ml twice a day  
Chicks : 5 ml daily per 100 birds  
Growers : 10 ml daily per 100 birds  
Layers & Broilers : 15 ml daily per 100 birds  
Breeders : 20 ml daily per 100 birds

**Presentation :** 500 ml, 1 lt & 5 ltr

Combination of Hepatoprotective Amino Acids, Vitamins, Liver Extract with Silymarin

# Livoni-S

Liquid

Increases fat metabolism & Prevents fatty Acid Syndrome  
Protects from liver cirrhosis & Fibrosis  
Prevents liver damage due to aflatoxins & bacterial toxins  
Vitalizes sluggish liver & enhance immunity  
Tones up micro flora in calves after deworming  
Improves growth, FCR, fertility & Hatchability  
Stimulates regeneration of Hepatic cells

## Usage & Administration :

Large Animals : 25 to 30 ml twice a day  
Small Animals : 15 to 20 ml twice a day  
Chicks : 5 ml daily/100 birds  
Growers : 10 ml daily/100 birds  
Layers & Broilers : 15 ml daily/100 birds  
Breeders : 20 ml daily/100 birds

**Presentation :**  
500 ml, 1 lt & 5 ltr

Blend of Chelated Minerals, Vitamins & Probiotics

# bovy-Im

Improves fertility & conception rate  
Maintains ruminal eco system  
Helps in utilization of vitamin & minerals  
Improves immunity  
Helps in Prevention & treatment of mastitis & metritis  
Improves weight gain, egg quality, Hatchability & FCR  
Helps in shortening the inter calving periods  
Improves milk Production with increased fat %

## Usage & Administration:

Large Animals: 25 to 35 gm per cow/ buffalo per day to be mixed in feed  
Small Animals: 15 to 20 gm per calf per day to be mixed in feed  
Fish: 1 kg per 100 kg of feed  
Poultry: 200 to 250 gm per 100 kg of feed

**Presentation:**  
1.2 kg, 6 kg, 24 kg

A combination of **Probiotics, Enzymes & Herbs**

# Famiser

Sachet

Removes aflatoxins  
Helps to rejuvenate rumen micro flora  
Helps to optimize milk production  
Helps to increase fat content in milk  
Helps to optimize SNF contents in milk  
Regularizes feed intake & digestion  
Stops loose droppings / loose dung

**Usage :**  
Cow, Buffalo & Horse : 1 sachet twice a day  
Dog, Calf, Goat & Pigs : ½ sachet twice a day

**Presentation :**  
6 sachet of 22 gm in a box

Combination of  
Omega 3,  
Omega 6 fatty  
acids, Phyto  
Extracts, Vitamins  
& Chelated Minerals

Increases conception rates after AI  
Increases the quality of cervical fluid  
Remove toxins & metabolic waste from the body  
Increases Luteinizing Hormones  
Prevents miscarriage associated with low progesterone level  
Provides nutrients to reproductive organs  
Provides nutrients for zygote development  
Reduces pre-embryonic death

**Presentation :** 200 ml

**Usage :**  
Cow, Buffalo & Mare : 200 ml daily  
Immediately after A.I : 200 ml  
2nd day after 24 hours : 200 ml  
3 day after 48 hours : 200 ml  
4th day after 72 hours : 200 ml

Gluconeogenic precursor fortified with vitamins

# Gluco-P

Liquid

Avoids chances of negative energy balance  
Prevents Ketosis and chances of recurrence  
Increases availability of glucose/energy  
Reduces inter calving period  
Helps to bring back animal to feed  
Helps in increasing milk yield  
Optimizes the liver function

**Usage :**  
1st day - 200 ml twice in a day  
from 2nd day to 4th day - 100 ml twice in a day  
**Presentation :** 500 ml & 1 Ltr.

Unique blend of Anions & vitamins

# Ionic

50 g Sachet

Helps to avoid chances of hypocalcaemia after parturition & prevents milk fever

Helps in better development of udder

Helps to metabolize calcium & Phosphorous during pregnancy

**Feeding Advise:**  
Cattle & buffalo : 50 gm morning & 50 gm evening for 20 days in last month of pregnancy  
Or as directed by Veterinarian

**Presentation:** 20 sachets of 50 gm in a box

Combination of Herbal Extracts, Organic Minerals & Fibers

# UV-PROCUR

Liquid

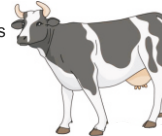

Strengthen the muscles and ligaments of uterus & vagina  
Helps in regulating Hormonal Balance

Helps to increase blood flow to ligaments of pelvic floor to maintain their integrity

Effective against both pre partum & post partum uterine & vaginal prolaps

Stops excessive bleeding & prevents miscarriage associated with low progesterone level

**Usage & Administration:** **Presentation :** 500 ml / 1 Ltr.  
Cow, Buffalo & Mare:  
50 ml twice a day with 250 gm of butter/ghee/mustard oil for 3 days  
Sheep, goats & bitch:  
25 ml twice a day should be given with 125 gm of butter/ghee/mustard oil for 3 day Or as directed by veterinarian

Blend of Glycine Chelated Iron With Vitamins

# HB-Life

Liquid

Prevents Iron deficiency Anaemia  
Supports erythropoiesis

**Usage & Administration :**  
Cattle/ Buffalo/ Horse : 40-50 ml daily orally  
Calves/ Sheep/ Goat/Dog-15- 20 ml daily orally  
Or as directed by Veterinarian

**Presentation :**  
500 ml

Blend of Trisodium Citrate, Chelated Minerals, Vitamins, Anti-inflammatory Natural Herbs & Probiotics

# Lactocare-k

50 gm Sachet

Highly effective in sub clinical mastitis

As an adjunct to antibiotic therapy in clinical mastitis

Helps to improve quality of clotted, flaky & alkaline milk

Helps to restore the milk yield due to non specific reasons

Restore the normal pH and biochemical constituents of milk in udder

**5 sachet of 50 gm in a box** **Usage-** 50 gm Daily for 4-5 Days

Unique combination of Vitamins, Chelated Minerals, Bypass fat, Bypass Protein & Fertility Enhancing Phytoherbs

# Kasturi

Fertility Mixture

Improves involution of uterus

Maintains estrogen & progesterone

hormone balance to release FSH & LH

Provide nutrient to reproductive organs

Improves breeding efficiency & conception

Reduces early embryonic mortality

Reduces the gaps in reproduction cycles

**Usage & Administration :**  
Large Animals : 25 gm daily  
Small Animals : 10 gm daily  
**Presentation :** 6 sachet of 25 gm in a box

Combination of Multivitamins, Chelated, Minerals & Natural Herbal Extract

# Kasturi

Bolus

Maintains estrogen & progesterone

Hormone Balance to release FSH & LH

Improves involution of uterus

Provide nutrient to reproductive organs

Increases blood circulation to the reproductive organs

Improves breeding efficiency & conception

Reduces early embryonic mortality

Reduces the gaps in reproduction cycles

**Usage & Administration :**  
Large Animals: 3 bolus every day for 4 days  
Small Animals: 2 bolus everyday for 3 days  
**Presentation :** 4 Bolus strip (3 strips in a box)

Combination of Probiotics, Liver Extract & Amino Acids

# ONIBOOST

Bolus

Reduces digestive problems & Improve appetite

Improves nutrient absorption

Reduce ammonia excretion and wet liver problem

Prevents & controls diarrhea occurs due to

bacterial infection as well as digestive disorder

Maintains intestinal flora, gut pH & rumen ecology

Increases milk yield & fat content

Improves body weight, growth, FCR & quality

**Usage & Administration :**  
Large Animals- 2 bolus daily  
Medium Animals- 1-2 bolus daily  
Small Animals- ½ bolus daily

**Presentation :** 4 Bolus strip ( 10 strips in a box)

Blend of ecobolic herbal extracts

# Chuuani

Liquid

Helps in expulsion of retained placenta & lochial discharge

Controls the flow of lochial discharge

Promotes timely involution of uterus

Checks the pus formation in uterus

Improves post calving performance

**Usage & Administration :**  
For Retention of Placenta  
Large animals: 250 ml & 100 ml after every hour for 3 times  
Sheep & Goats : 50 ml & 25 ml after every hour for 3 times  
**For cleansing of Uterus :**  
Large Animals: 100 ml daily for 10 days  
Small Animals: 25-50 ml daily for 10 days

**Presentation:** 500 ml & 1 Ltr.

Water soluble combination of natural essential oil of Menthol, Thymol, Tulsi

# Respomint

Liquid

Prevention and relief of respiratory symptoms & infections such as CRD, infection coryza etc

Helps to liquefy thick & sticky mucous  
Reduces inflammation & dilates all respiratory passages as a result mucous gets expelled

Prevents post vaccination reactions & stress due to ND, IB vaccines

**Usage & Administration :**  
Poultry- 10 ml in 40 ltr of Luke warm water per 1000 birds twice a day for 4-5 days

**Presentation :** 500 ml / 1000 ml

Blend of Glycine Chelated Minerals, Carbohydrates  
With Rejuvenating & Galactagogue Herbal Extract

## bovy-Im GOLD

**Liquid**  
Helps in early onset of Estrus  
Improves involution of uterus  
Helps in Shortening the inter calving period  
Improves fertility & conception rate  
Improves milk production with increased fat %  
Improves weight gain, egg quality,  
Hatchability, FCR & growth  
Improves Health & Vitality

**Usage & Administration:**

Large Animals: 50 to 75 ml per day  
Small Animals: 10 to 30 ml per day  
Poultry: 300 ml to 500 ml per 100 birds of  
feeding: Fish : 1 lt per 100 kg of feeding

**Presentation:**  
500 ml , 1 Ltr

A combination of Antigout  
Herbal Extract & Fruits Extracts

## Urotoné

**Liquid**

Prevents Visceral and Articular Gout  
Prevents urolithiasis  
Helps in excretion of uric acid  
Prevents formation of stones  
Reduces burning micturation, oedema  
Improves & stimulates Renal and Liver function

**Usage**

Chicks : 5 ml Daily/100 Birds  
Growers : 10 ml Daily/100 Birds  
Layers/Broilers : 20 ml Daily/100 Birds  
Breeders : 30 ml Daily/100 Birds

**Presentation :** 1 Ltr / 5 Ltr.

Combination of Anti Gout, Urease Inhibitor  
Herbal Extract with Fruits Extract

## Urotoné-FF

**Liquid**

Prevents Visceral and Articular Gout  
Prevents urolithiasis  
Helps in excretion of uric acid  
Prevents formation of stones  
Reduces burning micturation, oedema  
Improves & stimulates Renal and Liver function

**Usage**

Chicks : 5 ml Daily/100 Birds  
Growers : 10 ml Daily/100 Birds  
Layers/Broilers : 20 ml Daily/100 Birds  
Breeders : 30 ml Daily/100 Birds

**Presentation :** 1 Ltr / 5 Ltr.

Combination of Electrolytes, Vit.C,  
Probiotics & Dextrose

## Koolcee

**Powder**

Prevents dehydration and extreme heat stroke  
Maintains health during stress and strain  
Beneficial for horses after race exercise  
Improves immunity & productivity  
Helps to maintain adequate electrolyte balance  
Maintains calcium level, essential for egg shell formation  
Enhance intestinal microflora depleted due to heat stress

**Usage & Administration :**

Large Animals :100 gm twice a day  
Small Animals : 50 gm twice a day  
Poultry : 1 kg per ton of feed

**Presentation :**  
500 gm, 1 kg

Blend of Antistress Herbs, Electrolytes,  
Vitamins & Dextrose

## thermokool

**Liquid**

Prevents stress due to sex, transportation, during disease  
outbreak, pre & post vaccination  
Prevents dehydration and extreme heat stroke  
Prevents stress due to sexing, transportation  
Helps to maintain adequate electrolyte balance  
Relieves from temperature  
Improves productivity and Improves Immunity

**Usage & Administration :**

Chicks : 2-5 ml/day/100 birds  
Growers : 5 ml/day per 100 birds  
Layers/Broilers: 5 to 7.5 ml/day per 100 birds  
Breeders : 10 ml per day per 100 birds  
Cow/Buffer/Horse: 50 to 100 ml/day in divided doses  
Sheep/Goat/Calves/Dogs: 50 ml per day in divided doses

**Presentation :**  
1 Ltr.

Combination of Enzymes, Vitamins,  
Activated Charcoal & Antacid

## Digy-O

**Powder**

Reduces Surface tension & collapses froth  
Reduces gastric acid secretion  
Stimulates appetite  
Helps in breaking gas bubbles & releases entrapped  
gas hence reduces flatulence

**Usage & Administration:**

Large Animals : 25 to 40 gm daily  
Small Animals : 5 to 20 gm daily  
Fish : 250 gm per 100 kg of feed  
Poultry : 250 gm per 100 kg of feed

**Presentation:** 200 gm, 500 gm

Combination of Activated Charcoal  
& Soda Bicarbonate

## CHARU Soda

**Liquid**

Protects the intestinal lining as it absorbs  
toxins in the gastro intestinal tract

Helps to absorb ingested poison

**Usage & Administration:**

Animals- 1-2 ml/kg of body weight  
Repeated dose after 12 hours

**Presentation:**  
500 ml

Water soluble mixture of natural essential  
oil, carvacrol, thymol etc

## Carvamol-AD

**Liquid**

Controls loose droppings & diarrhea  
Reduces chances of coccidiosis  
Prevents bacterial & viral Infection  
Prevents lipid oxidation in Broiler meat  
Increases digestibility  
Increases body weight and weight gain  
Induces gut lesions

**Usage & Administration:**

Poultry : 3 to 5 ml per lt of drinking water  
Animals : 0.20 gm per kg of body weight

**Presentation :** 500 ml, 1 Ltr. , 5 Ltr.

Combination of Vitamins, Essential Amino Acids,  
Chelated Minerals,Natural Herbal Extracts,  
Probiotics & Fatty Acids Transporter

## Poligrow

**Powder**

Improves better growth & FCR  
Improves egg production, hatchability & egg quality  
Reduces number of pullet eggs in early laying period  
Improves breeders performance  
Controls subclinical infections  
Ensures optimum digestion  
Improves the egg yolk colour

**Presentation:**

1 kg, 5kg, 25kg Bag

**Feeding advice :** Poultry : Routine use: 500 gm per ton of feed daily  
Stress condition/Higher microbial load: 1  
kg per ton of feed for 7-10 days  
Fisheries : 1 kg per ton of feed regularly  
Cow, Buffalo & Horse : 50 gm daily  
Calf, Goat & Pig : 25 gm daily

Combination of Vitamins, Amino Acids, Minerals,  
Omega Fatty Acid & Immunity Enhancing Natural Herbs

## Immuni

**Liquid**

Immunity enhancer  
Immunity booster during 1 st week of chick age  
During pre & post vaccination of BD & ND for 4-5 day  
Builds resistance against disease and stress  
Improves general health and productivity  
Overcome speedy recovery from viral infections

**Usage & Administration:**

Layers: 5 ml /100 birds twice a week up to 18 weeks  
Boilers: 5 ml/100 birds on 2nd and 3 rd week  
Breeders: 5 ml/100 birds during chick stage  
10 ml/100 birds during growing stage  
Large Animals: 30 to 50 ml daily  
Small Animals: 15 to 25 ml daily

**Presentation:**  
500 ml, 1 Ltr. & 5 Ltr.

Vitamin B complex with Amino Acids

## Oniplex

**Liquid**

Improves growth, body weight & FCR  
Improves appetite  
Improves fertility & production  
Prevent cold & heat stress  
Immunity enhancer  
Improves egg production & egg quality  
Helps to reduce anaemia

**Usage & Administration:**

Chicks: 5 ml daily/100 birds  
Growers : 10-15 ml daily/100 birds  
Layers/Broilers: 15- 20 ml daily/100 birds  
Breeders: 20 to 25 ml daily/100 birds  
Large Animals: 25 to 50 ml daily  
Small Animals: 15 to 25 ml daily

**Presentation:**  
1 Ltr. & 5 Ltr.
